

TRACKIT

Version 3.0 Released

Contact us today to
schedule a demonstration

TrackIt is a web-based software solution that allows any employee in your facility to enter concerns. Concerns are then tracked as they progress towards resolution. Updates and reminders are sent from conception through completion. You define the categories you want to track whether it be Safety, Environmental, Quality, Production, Downtime, or anything else pertinent to your organization.

Version 3.0 Highlights

- New name and new logo. Replaces the former Safety Concerns software.
- Coordinators can now store costs, root cause, equipment number and work order number with all concerns.
- All users can attached unlimited images, files and urls to any concern.
- Concerns can be assigned to any employee in your facility. An email follow-up system is in place to insure that no concerns are misplaced.
- New chart report available depicting concerns by date, location, category and priority.
- Enhanced search functionality.

The screenshot shows the TrackIt web application interface. At the top left is the TrackIt logo. Below it is a navigation bar with tabs: Concerns, Add New Concern, Search Concerns, Search Results, and System Administration. The main content area displays "1 concerns found" and a table with details for a concern submitted on 05/06/10. The concern details include: Originator (BJ Lingren), Coordinator (Bowman, Jake), Reply Date (05/06/10), Disposition (Assigned), Category (Employee Safety Concern), ID# (152), Work Order#, Root Cause, Location (Paper Manufacturer 3), Cost (20), Follow Up Contact (Receptionist), Percent Complete (0), and Priority (High (Address Immediately)). A "Reply" section states: "The yard crew will take care of this immediately. I placed a Caution Sign on the walkway." Below the reply is a table of action items:

Action Item Desc	Assigned To	Disposition	Target Date	Completed Date
Salt the front walkway.	Andrew Kortuem	Assigned	5/6/2010 12:00:00 AM	
Remove the Caution Signs once walkway has been salted.	Kim Pease	Assigned	5/6/2010 12:00:00 AM
