

eLogger

VERSION 6.0

eLogger Version 6.0 will be released on October 1, 2009. We've stepped it up a notch and here's what our customers are saying:

- "Wow, you've add a lot more functionality in this version!"
- "It looks even easier than it was before."
- "It looks great, can't wait to start using it!"
- "The new version just eliminated one more manual process and form."

EASY TO USE!

- Spell Check is available on all text fields.
- Format comments with bold, underline, fonts, and colors.
- See all changes to an entry with our new Audit Report.
- New Reports: Audit Report, Admin Report, and an Entry Chart
- Copy entire entries, including attached files and images.

Give us a call or send us an email to schedule a demonstration.

WE'VE ADDED EVEN MORE POWER!

- Automated Conditional Emails: Inform key personnel when temperatures are too high, when injuries occur or whatever makes sense for your business.
- System-Wide Announcement can now be formatted to really stand out and get noticed by your employees.
- Create Required Entries on a schedule you define, for radio checks, periodic inspections, or anything else you need.
- Users can now belong to more than one Security Group.
- Use your own company logo in reports.

ADMINISTRATION MADE EASY!

- Administration made easy...do it all from one screen. You don't need to be a programmer to figure out how to set up eLogger to meet your business needs.
- Easier maintenance of System Wide Settings.
