United States of America demographic profiles illustrate a nation rich in cultural and racial diversity. Approximately 29% of the population are minorities and demographic projections indicate an increase to 50% by the year 2050. This creates a highly mobile and constantly changing environment, revealing the need for new levels of cultural awareness and sensitivity. Quackery, often synonymous with health fraud, is the promotion of fraudulent or ignorant medical practices. A quack is a fraudulent or ignorant pretender to medical skill or a person who pretends, professionally or publicly, to have skill, knowledge, qualification or credentials they do not possess; a charlatan or snake oil salesman. The term quack is a clipped form of the ... Amy Seipel, MSW, LSW, is a graduate of Western Michigan University’s School of Social Work.
