**Orientalism** - Edward W. Said - 2014-10-01
More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, Orientalism remains one of the most important books written about our divided world.

**Gendering Orientalism** - Reina Lewis - 2013-06-17

In contrast to most cultural histories of imperialism, which analyse Orientalist images of rather than by women, Gendering Orientalism focuses on the contributions of women themselves. Drawing on the little-known work of Henriette Browne, other ‘lost’ women Orientlist artists and the literary works of George Eliot, Reina Lewis challenges masculinist assumptions relating to the stability and homogeneity of the Orientalist gaze. Gendering Orientalism argues that women did not have a straightforward access to an implicitly male position of western superiority. Their relationship to the shifting terms of race, nation and gender produced positions from which women writers and artists could articulate alternative representations of racial difference. It is this different, and often less degrading, gaze on the Orientalized ‘Other’ that is analysed in this book. By revealing the extent of women's involvement in the popular field of visual Orientalism and highlighting the presence of Orientalist themes in the work of Browne, Eliot and Charlotte Bronte, reina Lewis uncovers women's roles in imperial culture and discourse. Gendering Orientalism will appeal to students, lecturers and researchers in cultural studies, literature, art history, women's studies and anthropology.

**Postmodernism and The Other** - Ziauddin Sardar - 1998

Postmodernism has often been presented as a new theory of liberation that promotes pluralism and gives representation to the marginalised peoples of the non-west and ‘other’ cultures. In this major assessment of postmodernism from a non-western perspective, Ziauddin Sardar offers a radical critique of this view. Covering the salient spheres of postmodernism - from architecture, film, television and pop music, to philosophy, consumer lifestyles and new age religions - Sardar reveals that postmodernism in fact operates to further marginalise the reality of the non-west and confound its aspirations. By tracing postmodernism’s roots in colonialism and modernity, Sardar demonstrates that the dominant contemporary intellectual fashion, peddling an insidiously oppressive and subtle revisionism, is the most comprehensive onslaught on the non-west ever experienced. In stern retort, the author offers ways in which the peoples of the non-west can counter the postmodern assault and survive with their identities, histories and cultures intact.

Colonial Fantasies - Susanne Zantop - 1997-08-20
Since Germany became a colonial power relatively late, postcolonial theorists and histories of colonialism have thus far paid little attention to it. Uncovering Germany's colonial legacy and imagination, Susanne Zantop reveals the significance of colonial fantasies—a kind of colonialism without colonies—in the formation of German national identity. Through readings of historical, anthropological, literary, and popular texts, Zantop explores imaginary colonial encounters of "Germans" with "natives" in late-eighteenth- and early-nineteenth-century literature, and shows how these colonial fantasies acted as a rehearsal for actual colonial ventures in Africa, South America, and the Pacific. From as early as the sixteenth century, Germans preoccupied themselves with an imaginary drive for colonial conquest and possession that eventually grew into a collective obsession. Zantop illustrates the gendered relationship between image and identity.

From as early as the sixteenth century, Germans preoccupied themselves with an imaginary drive for colonial conquest and possession that eventually grew into a collective obsession. Zantop illustrates the gendered character of Germany’s colonial imagination through critical readings of popular novels, plays, and travel literature that imagine sexual conquest and surrender in colonial territory—or love and blissful domestic relations between colonizer and colonized. She looks at scientific articles, philosophical essays, and political pamphlets that helped create a racist colonial discourse and demonstrates that from its earliest manifestations, the German colonial imagination contained ideas about a specifically German national identity, different from, if not superior to, most others.

Contesting Islam, Constructing Race and Sexuality - Sunera Thobani - 2020-12-10
The current political standoffs of the 'War on Terror' illustrate that the interaction within and between the so-called Western and Middle Eastern civilizations is constantly in flux. A recurring theme however is how Islam and Muslims signify the ‘Enemy’ in the Western socio-cultural imagination and have become the ‘Other’ against which the West identifies itself. In a unique and insightful blend of critical race, feminist and post-colonial theory, Sunera Thobani examines how Islam is foundational to the formation of Western identity at critical points in its history, including the Crusades, the Reconquista and the colonial period. More specifically, she explores how masculinity and femininity are formed at such pivotal junctures and what role feminism has played in the wars against 'radical' Islam. Exposing these symbiotic relationships, Thobani explores how the return of ‘religion’ is reworking the racial, gender and sexual politics by which Western society defines itself, and more specifically, defines itself against Islam. Contesting Islam, Constructing Race and Sexuality unpacks conventional as well as unconventional orthodoxies to open up new spaces in how we think about sexual and racial identity in the West and the crucial role that Islam has had and continues to have in its development.

From the Ruins of Colonialism - Chris Healy - 1997-02-28
From the Ruins of Colonialism throws fresh light on the history of memory, forgetting and colonialism. Focusing on Australia, the book charts how film, public commemorations, history textbooks and museums have, in a strange ensemble, become something called Australian History. It considers key moments of historical imagination, including the legends of Captain Cook and the Eureka Stockade, events such as the 1988 Bicentennial celebrations and the shipwrecked woman Eliza Fraser, whose story reflects anxieties about race and gender. This book argues for a new sense of remembering. Rather than being content with a culture of amnesia, it makes the case for learning to belong

**Metroimperial Intimacies** - Victor Román Mendoza - 2015-11-11
In Metroimperial Intimacies Victor Román Mendoza combines historical, literary, and archival analysis with queer-of-color critique to show how U.S. imperial incursions into the Philippines enabled the growth of unprecedented social and sexual intimacies between native Philippine and U.S. subjects. The real and imagined intimacies—whether expressed through friendship, love, or eroticism—threatened U.S. gender and sexuality norms. To codify U.S. heteronormative behavior, the colonial government prohibited anything loosely defined as perverse, which along with popular representations of Filipinos, regulated colonial subjects and depicted them as sexually available, diseased, and degenerate. Mendoza analyzes laws, military records, the writing of Philippine students in the United States, and popular representations of Philippine colonial subjects to show how their lives, bodies, and desires became the very battleground for the consolidation of repressive legal, economic, and political institutions and practices of the U.S. colonial state. By highlighting the importance of racial and gendered violence in maintaining control at home and abroad, Mendoza demonstrates that studies of U.S. sexuality must take into account the reach and impact of U.S. imperialism.

**How Well Do Facts Travel?** - Peter Howlett - 2010-11-15

This book discusses how facts travel, and when and why they sometimes travel well enough to acquire a life of their own. Whether or not facts travel in this manner depends not only on their character and ability to play useful roles elsewhere, but also on the labels, packaging, vehicles and company that take them across difficult terrains and over disciplinary boundaries. These diverse stories of travelling facts, ranging from architecture to nanotechnology and from romance fiction to climate science, change the way we see the nature of facts. Facts are far from the bland and rather boring but useful objects that scientists and humanists produce and fit together to make narratives, arguments and evidence. Rather, their extraordinary abilities to travel well shows when, how and why facts can be used to build further knowledge beyond and away from their sites of original production and intended use.

**Living a Feminist Life** - Sara Ahmed - 2017-01-13

In Living a Feminist Life Sara Ahmed shows how feminist theory is generated from everyday life and the ordinary experiences of being a feminist at home and at work. Building on legacies of feminist of color scholarship in particular, Ahmed offers a poetic and personal meditation on how feminists become estranged from worlds they critique—often by naming and calling attention to problems—and how feminists learn about worlds from their efforts to transform them. Ahmed also provides her most sustained commentary on the figure of the feminist killjoy introduced in her earlier work while showing how feminists create inventive solutions—such as forming support systems—to survive the shattering experiences of facing the walls of racism and sexism. The killjoy survival kit and killjoy manifesto, with which the book concludes, supply practical tools for how to live a feminist life, thereby strengthening the ties between the inventive creation of feminist theory and living a life that sustains it.

A History of Modern Israel - Colin Shindler - 2013-03-25
Colin Shindler’s remarkable history begins in 1948, as waves of immigrants arrived in Israel from war-torn Europe to establish new cities, new institutions, and a new culture founded on the Hebrew language. Optimistic beginnings were soon replaced with the sobering reality of wars with Arab neighbours, internal ideological differences, and ongoing confrontation with the Palestinians. In this updated edition, Shindler covers the significant developments of the last decade, including the rise of the Israeli far right, Hamas’s takeover and the political rivalry between Gaza and the West Bank, Israel’s uneasy dealings with the new administration in the United States, political Islam and the potential impact of the Arab Spring on the region as a whole. This sympathetic yet candid portrayal asks how a nation that emerged out of the ashes of the Holocaust and was the admiration of the world is now perceived by many Western governments in a less than benevolent light.

Mosquito Empires - J. R. McNeill - 2010-01-11
This book explores the links among ecology, disease, and international politics in the context of the Greater Caribbean - the landscapes lying between Surinam and the Chesapeake - in the seventeenth through early twentieth centuries. Ecological changes made these landscapes especially suitable for the vector mosquitoes of yellow fever and malaria, and these diseases wrought systematic havoc among armies and would-be settlers. Because yellow fever confers immunity on survivors of the disease, and because malaria confers resistance, these diseases played partisan roles in the struggles for empire and revolution, attacking some populations more severely than others. In particular, yellow fever and malaria attacked newcomers to the region, which helped keep the Spanish Empire Spanish in the face of predatory rivals in the seventeenth and early eighteenth centuries. In the late eighteenth and through the nineteenth century, these diseases helped revolutions to succeed by decimating forces sent out from Europe to prevent them.

Vénus Noire - Robin Mitchell - 2020-02-15
Even though there were relatively few people of color in postrevolutionary France, images of and discussions about black women in particular appeared repeatedly in a variety of French cultural sectors and social milieus. In Vénus Noire, Robin Mitchell shows how these literary and visual depictions of black women helped to shape the country’s postrevolutionary national identity, particularly in response to the trauma of the French defeat in the Haitian Revolution.
black woman. Finally, Mitchell shows how defeat in examining visual and literary representations of three black women who achieved fame in the years that followed. Sarah Baartmann, popularly known as the Hottentot Venus, represented distorted memories of Haiti in the French imagination, and Mitchell shows how her display, treatment, and representation embodied residual anger harbored by the French. Ourika, a young Senegalese girl brought to live in France by the Maréchal Prince de Beauvau, inspired plays, poems, and clothing and jewelry fads, and Mitchell examines how the French appropriated black female identity through these representations while at the same time perpetuating stereotypes of the hypersexual black woman. Finally, Mitchell shows how demonization of Jeanne Duval, longtime lover of the poet Charles Baudelaire, expressed France’s need to rid itself of black bodies even as images and discourses about these bodies proliferated. The stories of these women, carefully contextualized by Mitchell and put into dialogue with one another, reveal a blind spot about race in French national identity that persists in the postcolonial present.

**Orientalism** - Ziauddin Sardar - 1999-09-16

Why did orientalism emerge and how has it evolved? Has the theory of orientalism developed by Edward Said and others stood the test of time? What is the significance of postmodernism for the future of orientalism? Orientalism, the theory and practice of representing ‘the Orient’ in European thought, is a controversial and a problematic concept. This book provides a concise text on the evolution and development of the theory of orientalism, the practice of orientalism in history, and its persistence and reformulation in contemporary times. It places Edward Said’s contribution in an appropriate historical context, examines the work of his critics, and explores the postmodern future of orientalism. Ziauddin Sardar provides a highly original historical perspective and shows how orientalism was reworked and reinvested during the Middle Ages, the Enlightenment, colonialism and under the impact of modernity. Through the examination of a wide range of cultural products - films, television, fiction, CD-roms - this clear and coherent overview suggests that, as a practice of representing the ‘Other’, orientalism has been substantially transformed: it has reformulated itself as a diverse and sophisticated tool of representation.

Gilbert and Gubar's The Madwoman in the Attic after Thirty Years - Annette R. Federico - 2011-01-25
When it was published in 1979, Sandra M. Gilbert and Susan Gubar's The Madwoman in the Attic: The Woman Writer and the Nineteenth-Century Literary Imagination was hailed as a pathbreaking work of criticism, changing the way future scholars would read Jane Austen, Mary Shelley, the Brontës, George Eliot, and Emily Dickinson. This thirtieth-anniversary collection adds both valuable reassessments and new readings and analyses inspired by Gilbert and Gubar's approach. It includes work by established and up-and-coming scholars, as well as retrospective accounts of the ways in which The Madwoman in the Attic has influenced teaching, feminist activism, and the lives of women in academia. These contributions represent both the diversity of today's feminist criticism and the tremendous expansion of the nineteenth-century canon. The authors take as their subjects specific nineteenth- and twentieth-century women writers, the state of feminist theory and pedagogy, genre studies, film, race, and postcolonialism, with approaches ranging from ecofeminism to psychoanalysis. And although each essay opens Madwoman to a different page, all provocatively circle back—with admiration and respect, objections and challenges, questions and arguments—to Gilbert and Gubar's groundbreaking work. The essays Fraiman describes how Madwoman opened the canon, politicized critical practice, and challenged compulsory heterosexuality, while Marlene Tromp tells how it elegantly embodied many concerns central to second-wave feminism. Other chapters consider Madwoman’s impact on Milton studies, on cinematic adaptations of Wuthering Heights, and on reassessments of Ann Radcliffe as one of the book’s suppressed foremothers. In the thirty years since its publication, The Madwoman in the Attic has potently informed literary criticism of women’s writing: its strategic analyses of canonical works and its insights into the interconnections between social environment and human creativity have been absorbed by contemporary critical practices. These essays constitute substantive interventions into established debates and ongoing questions among scholars concerned with defining third-wave feminism, showing that, as a feminist symbol, the raging madwoman still has the power to disrupt conventional ideas about gender, myth, sexuality, and the literary imagination.

**Unthinking Mastery** - Julietta Singh - 2017-12-22
Julietta Singh challenges the drive toward the mastery over self and others by showing how the forms of self-mastery advocated by anticolonial thinkers like Fanon and Gandhi unintentionally reproduced colonial logic, thereby leading her to argue for a more productive human subjectivity that is not centered on concepts of mastery.

**Colonization and Domestic Service** - Victoria K. Haskins - 2014-12-05
This groundbreaking book brings together two key themes that have not been addressed together previously in any sustained way: domestic service and colonization. Colonization offers a rich and exciting new paradigm for analyzing the phenomenon of domestic labor by non-family workers, paid and otherwise. Colonization is used here in its broadest sense, to refer to the expropriation and exploitation of land and resources by one group over another, and encompassing imperial/extraction and settler modes of colonization, internal colonization, and present-day neo-colonialism. Contributors from diverse fields and disciplines share new and stimulating insights on the various connections between domestic employment and the processes of colonization, both past and present, in a range of original essays dealing with Indonesian, Canadian Aboriginal, Australian Aboriginal, Pacific Islander, African, Jamaican, Indian, Chinese, Anglo-Indian, Sri Lankan, and ‘white’ domestic servants.
